

□ IDC is resuming its grassroot project, **Neighborliness Project**, which we can collaborate. You will find the details below. Please announce this project to your congregation, students, etc. Forward it to others and feel free to contact us at 973-353-9333 for questions and details.

One of the unfortunate consequences of 21st century lifestyle is the weakening of relationships and interactions between neighbors and neighboring communities. As a result, people care less about each other because they don't share with and know enough about each other.

We believe by breaking bread together we will have a stronger dialog and better understanding of each other's values and ethnicity. This will set an example for our children to follow and make our and future communities a better place to live in.

The IDC realizes this is a problem in society. In order to improve the interaction between neighbors and communities, the IDC launched **Neighborliness Project**.

We are hopeful that this project will deepen the relationship amongst members of all faiths in our community, be fruitful with many outcomes, and continue in the coming years.

IDC organized has been organizing this project in Ramadan for several years and we want to do it year around.

If you or your friends want to be a part of this project and enjoy the warmth of Turkish hospitality along with ingenious and delicious Turkish food, please let us know. IDC will arrange a Turkish-American family by whom you will be hosted as their guests.

We would like this to be an opportunity for a continued dialog and relationship that will last.

We wish to see you at our homes soon!
