

The Dialog and Unity Dinners started as Ramadan Dinners in November 2004. Representatives of different walks of life are joining us, including faith representatives, government officials, members of law enforcement, scholars, business people, artists and elected officials come together at these dinners to recognize diversity and celebrate unity in diversity.

IDC and the dinner participants promote mutual understanding, friendship, and reiterate the importance of common human values in pursuing peace among all humanity.

The Dialog and Unity Dinners have become one of the most significant dialog gatherings as a source of inspiration for our Garden State.
